

Second Term Examination

Class 6th

Subject Science

M. Marks 70

1. Multiple Choice questions:

- Cooking of food is which change.
Physical Reversible irreversible
- Which of the following expand on heating?
Wood Metal iron
- Mango plant is a _____.
Tree Leave wood
- Photosynthesis takes place in _____.
Leaf Root trees
- Which of the following organ is protected by rib cage?
Heart Brain liver
- In motor vehicle which of the following is used for measuring the distance covered by the vehicle?
Speedometer Odometer thermometer
- Which of the following is false?
100mm = 1cm 1000m = 1km 100cm = 1m
- The motion of the wings of a moving fan is _____.
Circular motion linear motion Periodic motion

2. Fill in the blanks

- One meter is _____ cm.
- Motion of wheel of a bicycle is _____.
- Skull protects _____ of body.
- _____ is a female part of the flower.
- On heating metals _____.
- A new substance is always formed in _____ change.

3. True or false

- Burning of cracker is fast change.
- Stamen is the female reproductive part of the flower.
- Cartilages are harder than bones.
- Snakes moves very fast in a straight line.
- Standard unit of length is meter.
- Motion of hands of a clock is a circular motion.

4. Matching

- | | |
|-----------------|---|
| 1. Meter | a) absorbs water |
| 2. Pivot joint | b) non periodic physical and reversible |
| 3. Roots | c) chemical change |
| 4. Earthquake | d) length |
| 5. Milk to curd | e) movement of head |

5. Think and write

- You make a toy boat from a piece of paper. Can you obtain back the paper in original form?
- Rose plant is a _____?
- _____ always grows upward.
- Move your arm at elbow. Are you to move it in various directions? If yes, name the type of joint present there.

Second Term Examination

Class 6th

Subject Science

M. Marks 70

1. Multiple Choice questions:

1. Cooking of food is which change.

Physical	Reversible	irreversible
----------	------------	--------------
2. Which of the following expand on heating?

Wood	Metal	iron
------	-------	------
3. Mango plant is a _____.

Tree	Leave	wood
------	-------	------
4. Photosynthesis takes place in _____.

Leave	Root	trees
-------	------	-------
5. Which of the following organ is protected by rib cage?

Heart	Brain	liver
-------	-------	-------
6. In motor vehicle which of the following is used for measuring the distance covered by the vehicle?

Speedometer	Odometer	thermometer
-------------	----------	-------------
7. Which of the following is false?

100mm = 1cm	1000m = 1km	100cm = 1m
-------------	-------------	------------
8. The motion of the wings of a moving fan is _____.

Circular motion	linear motion	Periodic motion
-----------------	---------------	-----------------

2. Fill in the blanks

1. One meter is _____ cm.
2. Motion of wheel of a bicycle is _____.
3. Skull protects _____ of body.
4. _____ is a female part of the flower.
5. On heating metals _____.
6. A new substance is always formed in _____ change.

3. True or false

1. Burning of cracker is fast change.
2. Stamen is the female reproductive part of the flower.
3. Cartilages are harder than bones.
4. Snakes moves very fast in a straight line.
5. Standard unit of length is meter.
6. Motion of hands of a clock is a circular motion.

4. Matching

- | | |
|-----------------|---|
| 1. Meter | a) absorbs water |
| 2. Pivot joint | b) non periodic physical and reversible |
| 3. Roots | c) chemical change |
| 4. Earthquake | d) length |
| 5. Milk to curd | e) movement of head |

5. Think and write

1. You make a toy boat from a piece of paper. Can you obtain back the paper in original form?
2. Rose plant is a _____?
3. _____ always grows upward.
4. Move your arm at elbow. Are you to move it in various directions? If yes, name the type of joint present there.
